

List of Poster presentations

1. **M. Abdollahian-Noghabi,**
Evaluation of the effects of the length of harvesting operation on the qualitative yield of sugar beet in Dezful
2. **M.F. Askew,**
Exploiting the potential of non food products from sugar beet
3. **G. Bettini,**
Fertilizing irrigation in the spring cultivation of sugar beet
4. **E. Biancardi, P. Stevanato, D. Laureti, P. Meriggi, R. Telloli, V. Tugnoli**
Factors influencing the loss of sugar content during the harvest of sugar beet
5. **D. Bloch, C. Hoffmann**
Genotype – related development of marc, betaine and sucrose concentration in sugar beet
6. **J. Buddemeyer, J. Petersen, G. Büttner, S. Kluth**
Integrated control of crown and rootrot *Rhizoctonia solani* - Influence of cropping techniques
7. **G. Büttner, B. Holtschulte, B. Märländer**
Pathogenicity of different forms of the Beet necrotic yellow vein virus (BNYVV) on sugar beet – is there an evidence for the development of pathotypes?
8. **G. Campagna,**
Sustainable Weed Management in sugar beet
9. **C. Cerato, P.L.Burzi, S. Galletti, P. Stevanato, R. Ghedini**
Integrated Control of *Cercospora* leaf spot by *Trichoderma* spp. applications on sugar beet leaves
10. **J. Dieckmann, O. Tomanova, H. Miller, H.-J. Koch**
Influence of long lasting conservation tillage on the erosion risk of arable soils
11. **M.A. El Manhaly, M.S. Saleh, M.Ahmed, S. Nabawya, S.A.Ghura, B.A. Ali**
Identification of three Egyptian sugar beet genotypes and detection of DNA similarity
12. **K. Fares, M. Cheggour**
Sojourn of sugar beets, nitrogen fertilization and variety selection as major yield and internal quality improvement in the Mediterranean area
13. **S. Farzadfar, R. Pourrahim, A.R. Golnaraghi, N. Shahraeen, K. Izadpanah**
Status of sugar beet rhizomania associated viruses in Iran
14. **D. Grogan, L. Mark, P. Sweeney, P. Higgins, J. Morissey, F. O'Gara**
Sugarbeet cultivar and biological control
15. **O. Hermann,**
Results of the IIRB collaboratif trials on new pesticides applied as seed treatments
16. **H Hilali, M. El Antri**
Contribution to study of monogerm sugar beet establishment in Morocco
17. **D. Horn, K. W. Becker**
Determination of lime status in soils through direct calcium measuring with EUF
18. **E. Jörg, P. Racca, S. Mittler, J. Petersen**
CERC BET 3 – a forecaster for epidemic development of *Cercospora beticola*
19. **M. Kaemmerer-van Os, P. Becker**
Nitrogen and phosphorus requirements in sows on ad-libitum diets of pressed beet pulp
20. **C. Kenter, Christa Hoffmann**
Marc and betaine of sugar beet and their relation to sucrose during the growing season
21. **S. Kluth,**
Bioassays on the pathogenicity of different *Rhizoctonia solani* anastomosis groups
22. **H.J. Koch, N. Stockfisch, B. Märländer**
Preventive soil protection with heavy machinery implementation

23. **H.-P. König,**
Strategies for mechanical weed control in organic sugar beet cultivation
24. **A. Kornienko, T.P. Fedulova, S.N.Mitin**
Study of genetic diversity in sugar beet inbred lines by protein markers technique
25. **R. Laudien, K.Bürcky, R. Doluschitz**
Development of a field-based Management Information System for sugar beet companies
26. **G. Legrand,**
The data base of the "International Sugar Beet Library" (BIB) now available "On-Line"
27. **G. Mäck, C. Hoffmann**
Synthesis of harmful N in different sugar beet genotypes
28. **N. Ogata, H. Takahashi**
Relationship between double ovules (twin) rate before anthesis and after ripening in monogerm self-fertilized sugar beet
29. **A. Olsson, R. Olsson**
Geographic distribution of the soilborne fungus *Aphanomyces Cochlioides* in Sweden
30. **A. Ossenkop, W. Horn, E. Ladewig**
Research on dirt tare evaluation in variety trials
31. **M. Oussible, M. Jbilou**
Influence of different seed pelleting at different imbibition doses on the germination - emergence stage of monogerm sugar beet
32. **C. Pommerehne,**
MIR-System Nordzucker
33. **L. Potyondi,**
Low sugar content syndrome (LSCS) in Hungary
34. **H. Takahashi, Ogata**
Exploration of *Beta vulgaris* ssp. *Cicla* (L) koch in Kagoshima prefecture (southwest area of Japan) for breeding new genetic resources of sugar beet
35. **O. Tomanova, H.-P.König, H.-J.Koch**
Influence of reduced tillage on nutrient supply in sugar beet
36. **V. Tugnoli,**
A suitable defence against cercospora in Italy utilizing additives in combination with triazoles
37. **J. Vereijssen, J.H.M. Schneider**
Detection of *Cercospora beticola* in plant and soil using PCR-techniques
38. **C.E. Westerdijk, J. Lamers, H. Schneider, Y. Bakker, J. Petersen, J.Buddemeyer, G. Büttner, U.Schmidhalter, J. Kühn, R. Rippel, R. Apfelbeck**
Strategies to control *Rhizoctonia solani* in sugar beet
